## SUMMARY

Full-stack developer with 4+ years of experience in **MERN** stack and **Mobile App** development. I've built and deployed scalable web apps on AWS/GCP and mobile apps on Play Store and App Store. Key projects include **PAKA AI** (automated customer support), **PatilKaki** (Shark Tank India e-commerce app), **8Qors (MDM)**, and **Overay** (clothing delivery platform). Skilled in leading projects, DevOps, and delivering real-world tech solutions.

## EXPERIENCE

### React Native Developer

#### Reverr

01/2021 - 01/2022    Remote (New Delhi)

Reverr is an AI-powered platform built to foster meaningful connections between startup founders and investors. The company also developed a **Mentor Guidance platform** that empowers early-stage startups by providing access to expert mentorship and **streamlined fundraising** opportunities, creating a comprehensive support ecosystem for entrepreneurial growth.

### React Native Developer

#### MCLabs Private Limited

02/2022 - 08/2022    Remote(Mumbai)

Mclabs private limited was spun off of the **Broadband Communication System** Project that was being run under the aegis of National Center of Excellence in Technology for Internal Security (NCETIS) at Indian Institute of Technology, Bombay (IIT Bombay).

### MERN Stack Developer

#### BlackCoffers

09/2022 - 11/2024    Remote(New Delhi)

Blackcoffer has been key in growing analytics and technologies in risk management, **insurance**, **healthcare**, case management, **cyber security**, capital markets, insider threats, intelligence and custom solutions for delivering the highest value and quality via optimization, operations research, predictive modeling, statistical modeling, big data analytics, machine learning, and approximation algorithms.

### Software Engineer

#### Aieze Vertex Private Limited

12/2024 - 04/2025    Noida Sector 135

Aieze is a leading software product development company specializing in custom solutions across mobile apps, web platforms, **IoT**, and **ERP** systems. During my time here, I contributed to the development of a robust MDM (**Mobile Device Management**) application, helping businesses securely manage and control mobile devices at scale.

### React Native Developer

#### Maxtra Technologies

04/2025 - Present    Noida Sector 67

At Maxtra Technologies, I worked as a React Native Developer on projects like a **cab booking app**, **e-book app**, **smart ring app**, and grocery delivery app. I also led full-stack development for a **cloth delivery app**, where I built the backend (Node.js), admin panel (React), mobile app (React Native), and website (Next.js), handling the entire product from start to finish.
